Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Thursday 09 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with heavy rain and risk of thunderstorms.

Today:
A mostly cloudy day with pockets of heavy, showery rain, with localised thunderstorms possible, throughout the region. This rain likely to pick up in the afternoon, becoming downpours in some places. Cooler than Wednesday but likely still warm and humid. Maximum temperature 23 deg C (73 deg F).

Tonight:
The day's storms clearing during the evening and early night, leaving the bulk of the night mostly dry but cloudy. Widespread light showers moving in from the southwest early morning. Minimum temperature 14 deg C (57 deg F).

Friday:
Unsettled throughout the day with a mixture of cloud and sunny spells. Extended sunny spells may allow heavy showers to develop locally, with risk of thunderstorms. Maximum temperature 22 deg C (72 deg F).

Outlook for Saturday to Monday:
Likely a cloudy start to Saturday clearing to a generally dry and bright weekend and Monday, though the odd light shower remains possible. Temperatures turning to nearer average.
